

Family Event

Babysitting is included.

Children's activities include activities with Creation Science instructor Sarah Gahl. Many will want to listen to the Noah's Ark and dinosaurs sessions also.

Snacks & lunch at affordable prices.

Register on-line – now!

Help us plan. Registration – we will have a free will offering at the event. BUT, please register on-line so we know how many will attend. For reduced priced meal, register and pay on-line by May 11, 2015. Details at: www.stlucascc.org

Lunch (Chicken hind quarter, potatoes and vegetable) \$2.75 per person if pre-registered or \$3.75 if paid at the door.

Creation & Evolution: Compatible or in Conflict? by Jay Seegert. New book – special pricing at conference.

May 17th and 19th Jay Seegert will be at Ham Lake: www.radissonroadbaptistchurch.org/# and Roseville: <http://tccsa.tc>

A Plausible Answer

Jesus didn't separate Scriptural statements about history from spiritual subjects.

People often do not have the substantiating evidence to connect history and science with the Bible, which raises doubts in Scripture and what they believe. Enhance your Spiritual confidence with the facts and compelling reasons for your faith so that you can give a reasoned answer to yourself and others.

"If I have told you earthly things and you do not believe, how will you believe if I tell you heavenly things?" John 3:12

Science & Bible - 21st Century Understanding

Saturday, May 16, 2015

Reconnecting history, science and the Bible

Learn the facts. Be equipped with compelling reasons for your faith.

Please register for conference and reduced lunch prices before May 11, 2015

St. Lucas Community Church
1195 Manning Ave. N.
Lake Elmo, MN 55042

Saturday, May 16, 2015

8:00-8:45 a.m. Check-in

8:15-8:45 a.m. – Fossil display tour

8:50-9:00 a.m. – Opening –
Pastor Dan Peterson

Session 1: 9:00-10:00 a.m. – Scientific Evidence for the Inspiration of the Bible – Jay Seegert. Everything we believe as Christians rests on the assumption that the Bible is actually the inspired, error-free Word of God... but how do we know that? It's not politically correct to believe the Bible alone is the inspired Word of God and most Christians cannot defend this belief. Are we to exercise blind faith, or is there a great body of evidence supporting this crucial point? This topic presents incredible scientific evidence showing beyond a doubt that the Bible is truly the inspired Word of God!

Session 2: 10:15-11:15 a.m.

Noah's Ark of Salvation – Paul Kampe. Was the Ark that Noah built just a bathtub-boat vessel, or something more? How does the New Testament confirm the Genesis flood as an actual, historic event? Do the Ark and Flood have any application to my life, and should I care? Find answers to these questions and more at this engaging presentation!

Session 3: 11:30-12:30

Creation vs. Evolution – The Case from Science – Jay Seegert.

An exciting presentation (in layman's terms) of evidences for creation and challenges to evolution in three main areas: Origin of the Universe; Origin of Life; Origin of Species.

Science overwhelmingly supports the Genesis account. Learn the facts. A straight-forward reading of the book of Genesis is intellectually sound.

12:30-1:30 Lunch (hind quarter of chicken, rice and vegetable) \$2.75 for early registration or \$3.75 at the door.

Session 4: 1:30-2:30 p.m.

Dinosaurs and the Bible – Jay Seegert. Dinosaurs are both extremely fascinating and also the source of much confusion when it comes to trying to comprehend their place in God's creation and the Bible. The media often paint a picture that is difficult to reconcile with our understanding of the Bible, so many have concluded that the Bible doesn't mention dinosaurs or have even gone as far as to say that they never really existed!

This talk takes a look at the true history of dinosaurs, expels the myths and shows that the Bible explains the actual scientific evidence much better than any secular evolutionary stories. This talk is especially interesting to children, but adults will also be extremely intrigued.

Jay Seegert's training is in physics and mechanical engineering. He is a board member of Logos Research Associates. His latest book is: *Creation & Evolution; Compatible or in Conflict?* This may be the best overview, with supporting facts, of the creation/evolution controversy. Two appendices provide an excellent understand of worldview and data interpretation.

He is co-founder and principal lecturer for the Creation Education Center. Their website is: www.cecwisc.org He has spoken at conferences for 27 years and has a special interest in apologetics.

Paul Kampe came to a saving faith 20 years ago while in college at St. Cloud State University. He is married and has four children. Currently he is a Financial Controller at Rockland Flooring Company in Red Wing, MN. He is originally from Milwaukee, WI.

Jay will also be speaking at:

The University of Northwestern, 3003 Snelling Ave. N, Roseville on May 19. 7:30 p.m. <http://tccsa.tc>

Evolution: Probable or Problematic?

Radisson Road Baptist Church, 13627 Radisson Road NE, Ham Lake, MN, Sunday, May 17: adult morning Bible Study, during the service and in the evening. Details at: www.radissonroadbaptistchurch.org/
